Lifetime MULTIFLORA ROSE "LIVING FENCE"

Horse High—Bull Strong
Goat Tight

year! Ordinarily, plants

And the fact that we grow and ship more of our living fence plants to more people throughout more of the country than any other nursery means we have been able to hold our price to rock-bottom minimum for quality stock.

THE BEST LIVING FENCE you can buy! That's right, grade for grade you will find our Multiflora definitely superior. Grown by Hugh Steavenson, the originator of Multiflora Rose Living Fence. Our plants are grown on the best Mississippi bottom ground. Plants receive the best culture, including a feeding of balanced plant-food injected into irrigation water each time plants are irrigated. The result is a "fattened" plant, loaded with nutrients, that is "arin to grow." Folks are amazed at the growth of our plants the very first year! "stand still" the first year while the root system becomes established.

Our Satisfied Customers—Your Best Guarantee

FROM MISSOURI: "I desire 200 more #1 Standard and Thorny Multiflora Rose. None of the 350 I orderd last spring has died. Some of the shoots on some of the plants have already grown 5 1/2 feet." *St. Louis, Mo.*

FROM OKLAHOMA: "I bought 50 from you last year, and they are wonderful." *Oklahoma City, Okla.*

FROM TEXAS: "This is a snapshot of a 3-yr.-old Multiflora Rose hedge (stock from your nursery). Has thrived thru Texas drought and grasshopper siege of last summer without irrigation. It borders the road and gets plenty of water from road ditch when it does rain." *Ft. Worth, Texas*

FROM MICHIGAN: "We planted Multiflora Rose Fence on our place at Pigeon, Michigan, in the fall of 1951—it survived two winters in fine shape and is now a nice fence—canes are 5 to 6 feet long—we're very proud of it." *Lansing, Mich.*

FROM ILLINOIS: "Of the 1000 plants of your No. 1 size which I set out last March all have made excellent growth except three—run over by a wheel in plowing. Attaining an average height of 28' in the past summer. I am willing to hazard the guess that I will have a cattle fence in less than three years!" *Heary, Illinois*

FROM PENNSYLVANIA: "We have had wonderful success with a thousand plants of your Multiflora Rose. After three years it will even hold our Chevrolet Sheep!" *Harrisburg, Pa.*

FROM A SOUTHERN STATE GAME AND FISH COMMISSION: "We would like to place an order with you now for next fall delivery for 25,000 Multiflora Rose plants. The 20,000 plants we received from you this fall were excellent stock. You will be interested to know that survival of the plants so far is almost 100%. They are making vigorous growth at this time."

Millions of Forrest-Keeling Multiflora Rose Plants
Have Been Sold to Make LIFETIME Fencing

GUARANTEE

We guarantee that 95% of the No. 1 Standard (and larger sizes) Forrest Keeling Multiflora Rose that you buy from us will live. If you will notify us during the first summer (before August 15) following planting of the number which do not live, replacement will be made equal to 95% of the number originally purchased. Conservation grade will ordinarily give excellent survival but we limit the guarantee to 85% because this smaller size is more vulnerable to adverse weather and site.

ELSBERRY, MISSOURI

Hugh Steavenson

FORREST KEELING NURSERY

FORREST KEELING MULTIFLORA ROSE is a thick, thorny, blossoming shrub that attains a height of 6 to 8 feet. When the plants are set close together (12 inches) in a single row they rapidly form an effective barrier against animals and people.

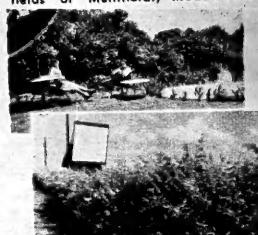

We grow only one type of Multiflora and we think there is none better for hedge fencing purposes. Its growth is somewhat umbrella-like. Canes shoot up 4 to 6 feet or more, then begin to droop with the slender ends of the side canes hanging almost to the ground.

The importance of selecting the right type of Multiflora cannot be over-emphasized. The U.S. Department of Agriculture says "When selecting plants for your fence hedge of multiflora rose, be sure they are erect and have stiff thorns." The University of Missouri, College of Agriculture, has this to say: "The multiflora rose is notorious for variability of form and vigor. Upright, spreading and trailing kinds may be found. Some have thorns, others are thornless. For hedge fence purposes, it is important to select the upright, thorny, vigorous type which grows a mass of dense canes from the ground to a height and spread of about eight feet."

Selecting parent stock for thorniness, disease resistance and vigor. (Note our well-grown fields of Multiflora.)

EVERGREEN WINTERBERRY

(*Euonymus patens*)

A wonderful broadleaf evergreen shrub. It thrives in deep shade as well as full sun. Glossy, rich, leathery foliage and masses of bittersweet berries in fall and winter. Exceptionally good as clipped or free-growing hedge. No quantity discount.

COLORFUL VINES

Featured in **PLANTLAND'S Annual Spring Green Thumb Sale!**

SEE PAGE 15 FOR GROUND COVERS

Hall's Evergreen HONEYSUCKLE

(*Japanese holly*)

A favorite ground cover. Evergreen foliage; white, deliciously fragrant trumpet shaped flowers turning to cream color. A vigorous, exotic vine which has taken kindly to American conditions and well adapted and hardy most everywhere. Suitable in sun or shade. For ground cover, plant on 2 foot centers.

Strong 2-yr. vines.

No. 1 VINES

Spring Sale
Special

\$1 EACH
Post-paid

BITTERSWEET

Most ornamental of our hardy northern vines. Trusses of gold and red berries are an annual autumn delight and they last well into the winter unless you harvest for bouquets. Rich deep-green foliage turns brilliant saffron in autumn. Hardy and vigorous in sun or semi-shade. Use on trellis, fences, pergolas and as bank cover.

BLUE CLEMATIS (*Clematis jackmani*)

Huge, velvety violet-purple flowers. Many Clematis have been introduced but none, in our estimation, rival the glory of Clematis jackmani. Grows rapidly and blooms all summer. Likes fertile, moist, soil and a protective mulch. Use on pergola, fence, upright supports or rockeries. Plants from pots.

1³⁵ each;

1³⁰ each per 3, postpaid

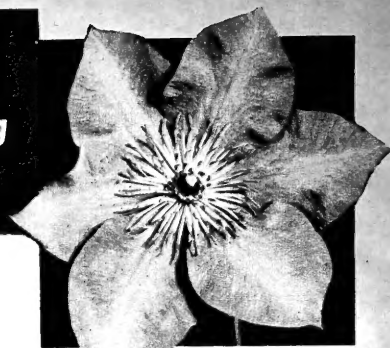

Fragrant SNOWDRIFT CLEMATIS

(*paniculata*)

The most fragrant vine you can plant. Profuse flowers cover the plant in August and September to provide a veritable snow pillar of bloom. Fluffy heads make an enchanting display after flowers are gone. Foliage is semi evergreen. Great vigor of plant makes it easiest of Clematis to grow.

Plantland's SHADE-LOVING Plant Selection *Sale!*

VINES For SHADE

Right: Dr. Edgar Anderson, Director of Missouri Botanical Garden, who discovered and introduced Bulgarian Ivy. He is standing, with Hugh Stevenson, head of Forrest Keeling Nursery, on a "smooth, green carpet" of the Ivy. Note also how the ivy clothes the tree-trunk in an evergreen sheath.

BALTIC IVY (*Hedra helix baltica*)

Hardy form of English Ivy. Excellent vine for covering walls of stone and brick. Equally useful as a ground cover where grass is shaded out, or for shaded embankments. Spreads and covers rapidly.

Twelve or more plants, **25¢** each, Postpaid

BULGARIAN IVY

(*Hedra helix MBG* Bulgaria*)
(*MISSOURI BOTANICAL GARDEN)

Truly a superb vine—providing a luxurious emerald carpet for your home grounds. Far superior in hardiness, vigor, character and appearance to any other ivy for use as a vine or shady-area ground cover. Brought to this country by Dr. Edgar Anderson, Director of the Missouri Botanical Garden (Shaw's Garden), in 1934. It has proven itself for creating a "smooth green carpet" in shady locations where grass will not grow. Its performance as a vine on stone walls, buildings and tree trunks is equally satisfactory. Its vigor, ease of establishment, verdant foliage and robust growth habit promise to revolutionize the use of ivy as a ground cover and vine in the midwest.

6 plants **\$275** for
12 plants **\$500** for
100 plants **\$2950** for All Postpaid

PURPLE WINTERCREEPER

(*Euonymus fortunei colorata*)

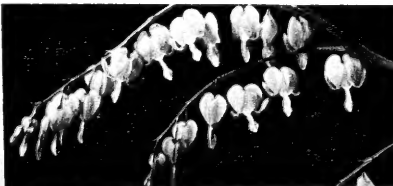

Excellent broadleaf evergreen ground cover with leaves turning a purplish red in the fall and remaining that color all winter long. Thrives in sun or deep shade.

12 or more, only **25¢** each, postpaid

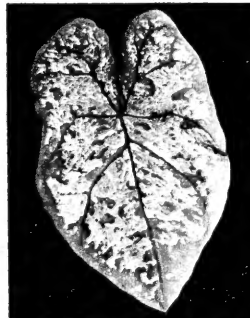

Plantland's BLEEDING HEART

Old fashioned favorite. Pink, heart shaped flowers resemble a graceful valentine. Beautiful in mixed bouquets. They do exceedingly well in partial shade, producing hundreds of blooms. Blooms for several weeks in late spring.

\$1¹⁹ EACH Postpaid

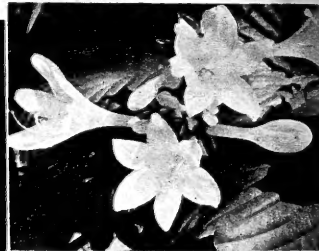

Here's the answer to that problem spot in deep or partial shade. Beautify with these fine plants.

Fancy Leaved CALADIUM

Very showy foliage plants with red, green and white variegated leaves. Marvelous pot plants for sunporch, or for shady window boxes. Plant in shade or semi-shady locations, four inches deep. Heavy bulbs.

3 Bulbs for **\$1** 6 Bulbs for **\$185** Postpaid

FUNKIA (Pineapple Lily)

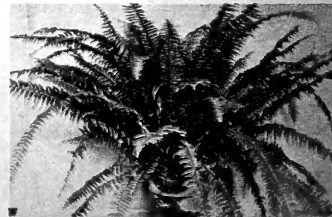

Hardy perennial with handsome green foliage and lily-like lilac flowers borne on graceful spikes. This shade loving plant blooms in July and August, and attains a height of about 18 inches. Will thrive in shade or partial shade.

60¢ each 3 or **50¢** each paid

HARDY FERNS

Note!

WEEKLY PLANTING DEMONSTRATION

Every Saturday at 2:00 p.m. (Standard time) during the spring planting season, March thru May, weather permitting, we will conduct a planting demonstration at the nursery. Demonstration will include tips on how to do your own planting easier, faster and better. Approved methods of planting bare-root stock; hedging (such as Multiflora Rose living fence); Balled-and-Burlopped plants; and Container-grown plants will be shown. Fertilization, mulching, pruning and other cultural practices will be demonstrated.

No charge for "schooling," of course. Open to customers and visitors alike.

Hugh Steavenson.

SIBERIAN ELM SCREEN OR WINDBREAK
(*Pumila*)

Fastest-growing, drought resistant windbreak, hedge or screen you can plant. Our plants are grown from local parents of proven hardiness and durability. Use as free-growing windbreak or screen where you have plenty of growing room. Keep pruned to make handsome clipped hedge in more confined quarters. Set plants 2 feet apart.

Drive Out to PLANTLAND Today!—Or Use Handy Mail Order Form on Page 20

GOLDEN RAIN TREE

(Koeleria paniculata)

Unique flowering tree. In mid-summer the whole tree is a cascade of golden bloom. Golden yellow flowers are borne in long clusters—a breath-taking sight when they stir in the breeze. Suitable for planting against walls, corners or wherever a flattering floral display is desired.

Special
18-24"
plants

\$1.00 Ea.

3 ft. field-grows, \$3 ea., postpaid

← THUNDERCLOUD

Finest of the Purple-Leaf Flowering Plums. The tree reaches only 12 to 15 feet at maturity but bold outline and flaming foliage give a color glow to the home grounds no other tree can duplicate. In the spring, before foliage appears, bright red buds open into pink blushed blooms with deep red throat. Blooms are followed by small red plums that are good to eat.

Field-grown, branched, **\$2.60** Post Paid
3 to 4 ft.

WHITE FLOWERING DOGWOOD →

Best ornamental tree native to northern U. S. Nothing equals its flowering effect at break of spring. Bright red berries in fall; dense lustrous foliage that turns scarlet in autumn; and horizontal branching habit make it a 4-season beauty. 4-year developed trees, 4 to 5 ft.

An **\$4** EACH
exceptional buy at Shipped express collect.

← PINK SMOKE

(Coggylana Smoke Tree)

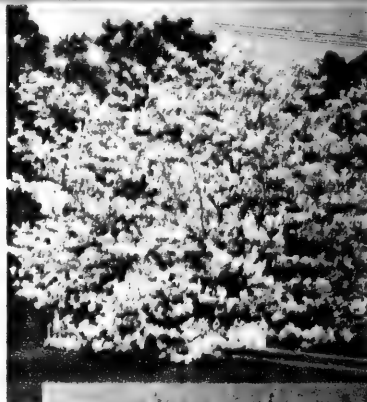

Entire body of this dwarf tree (grows to 15 ft.) is enveloped in summer with masses of misty pinkish-grey flowers that make entire plant resemble a drifting cloud of pink smoke. Blooms remain for weeks. Lush, bronze-tipped foliage develops fiery red and gold autumnal colors.

Heavy, **\$1.69**
field-grown, 2-3-ft.

REDBUD (Cercis canadensis) →

Choice small tree laden with masses of purplish pink flowers at break of spring. Excellent for accent in shrub border. Completely hardy. Will take full sun or considerable shade.

Field-grown, **\$2.00** Post Paid
3 to 4 ft. well branched. Each

You're Always Welcome at

PLANTLAND

February, 1957.

Dear Friend:

We cordially invite you to visit with us at the Nursery. Drive up and inspect our plants first hand. We are just an hour out of West St. Louis, on Highway 79---the most scenic route in East Missouri. We have plenty of parking area available, and tables for you to eat your picnic lunch. Pack the kids in the car and come see us!

However, if you live clear across the country, rest assured that your plants will be packed to reach you as fresh and full of growing vigor as if you were here to select them from the field.

Don't forget that early planting is hard to beat, so we suggest placing your order promptly while full selection of plants is still available.

We are looking forward to serving you.

Hugh Stevenson

GREEN THUMB *Sale!*

TIDAL BASIN CHERRY (Yedoensis)

This is the famous Japanese Flowering Cherry that constitutes the majority of trees about the Tidal Basin in Washington, D.C. These trees were presented in 1912 by the Mayor of Tokyo and have enthralled sightseers ever since. A fairly small tree, spreading and umbrella like in conformation. Becomes a cloud of fragrant white to pink blooms in late spring. One of the hardiest of flowering cherries and easy to grow.

(*Weigela vaniciei*)
Heavily covered with hundreds of scarlet-red blossoms in mid-May, and scattered blooms throughout summer. Extremely hardy. Plant in full sun or partial shade. A "must" where maximum color is desired.
Field-Grown, 18-24 in., Heavy Plants **\$1.50 Ea.** Postpaid

Plantland's

LANDSCAPE SERVICE

HINTS to BETTER LANDSCAPING

Nothing is more becoming to the home than a clear sweep of lawn. Keep it open and uncluttered. Confine plantings of shrubs, evergreens and flower beds to the home foundation, yard borders and corners.

Use trees to frame the home and provide shade as needed, particularly on the west. Remember that a small shade tree will increase in value many times over in a few years.

The front doorway is usually the focal point of the landscape picture. Accent it with evergreens or shrubs scaled to its dimension. Avoid varieties that will over-grow the scale, or such exclamation points as Irish Juniper.

In the foundation planting, choose plants that create long, low horizontal lines and that do not cover windows. This is particularly important with modern architecture.

Tall shrubs soften the vertical corner lines of the house.

Foundation planting should extend beyond the corner of the house, visually broadening the house and carrying the eye from the roof line to the lawn.

Flowering trees of restricted growth are excellent to frame the house and may be tied to the foundation planting with ground covers.

Hedging can be very effective for extending horizontal lines and may be used across and beyond the foundation as well as for usual boundary and area-divider purposes. A great many finer plants may be used for hedging and one need not resort to common privet.

Gain privacy and protection in the rear yard with screen and border plantings. This area may then be used as an outdoor living room, and space allotted for garden and service areas as required.

Planting and Care of Nursery Stock

We find that just about everyone, green thumb or not, has a pretty good idea how to plant trees, shrubs, evergreens or what have you? There are many cultural details as to pruning, fertilizing, spacing of plants, spraying and other practices that are often busy in the average home-owner's mind, however, and we have prepared an instruction sheet which covers essential points.

It covers rose growing in detail; general planting instructions; mulching practice; planting bare-root, B&B, and container-grown plants; strawberry culture; best location and spacing of fruit trees, berry plants, and even flowers and vegetables, and horseradish. It also covers essential perennial and house plant culture as well as requirements for acid-loving plants such as azaleas and rhododendrons.

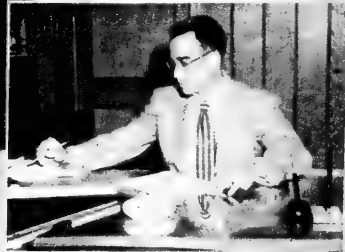

FREE!

We send out a copy with each order, of course, but whether you order from us or not a postcard will bring you a copy.

Have You a LANDSCAPE PLANTING PROBLEM?

We invite you to use our counseling service.

Ralph Shugert, landscape horticulturist, heads our team of trained landscape planners.

Ralph Shugert, B.S. in Forestry, University of Missouri 1944, has a background of hundreds of landscape designs from the simplest to the most comprehensive lay-outs.

Whether your problem is planting a door step or landscaping a factory, we can help you. We have planted any number of schools and institutions, but many more home grounds from the simplest to the more elaborate. We can prepare a simple sketch from your photos and measurements and advise you on proper plant selections. If you live near the Nursery (within 100 miles) arrangements can be made to have one of our landscape men counsel directly with you on the ground. You will find this service most valuable.

Remember this: nursery plants are one of the very few products that increase in value from the day of purchase. (Most articles decrease 20 to 50 per cent in value immediately upon delivery). A tree you purchase today, you would not part with for 10 times the purchase price 5 or 10 years hence. Let us help you select your plants for most rewarding returns.

WHEN IS THE TIME TO PLANT

Anytime! Yes, anytime you can get a spade in the ground.

During the dormant season—mid-fall through spring, excepting when the ground is frozen—bare-root trees, shrubs and roses are successfully transplanted. Our modern cold-storage keeps our plants field-fresh and completely dormant until shipped to you.

Balled and burlapped (B&B plants) also extend the planting season, and they may be planted almost the year 'round, although the period June 1st until late August is critical with most B&B plants.

Container-grown plants may be planted literally anytime—mid-July or mid-January, if you can dig a hole.

High Stevenson

FORREST KEELING

CONTAINER - Grown Plants

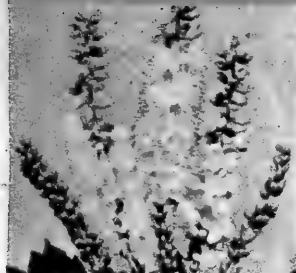

Forrest Keeling Nursery produces—by far—more container-grown trees, shrubs, vines and evergreens than any other nursery in the vast east-Missouri-southern Illinois region.

A container plant can be planted any time you can stick a spade into the ground—mid-summer, mid-winter, spring or fall. They are actually "pre-planted." You get the entire root system which is established in the best potting soil we can formulate. A container plant suffers no transplant shock; it keeps right on growing and will often overtake a much larger plant grown the conventional way.

You will find a wide assortment of container plants at "Plantland." They are so easy to plant. And economical, too. You'll find it fun to garden with our vigorous, sturdy, container-grown plants! Do not hesitate to plant in mid-summer with our container plants!

Annual Spring

Green Thumb Sale

CLETHRA Pink Snow

Most fragrant of any garden shrub. Clethra bursts into a snow bank of bloom in late July—when most shrubs are no longer flowering—and fills the entire garden with a delicate fragrance. Neat and compact, growing to 4 to 5 ft.

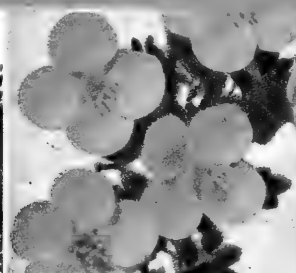

Bushy 18-inch Plants **\$129** each, Postpaid.

Blue Prince HYDRANGEA

(Nikko Blue)
Immense globe-shaped flowers, 12 inches across, last 8 to 10 weeks or more. Pure pink on alkaline soils; a heavenly light blue where plant is in acid soil. Plant grows to 2 or 3 feet in diameter and height. Fine foliage throughout season.

\$169 each, postpaid

GOLD DROP (Potentilla)

Dwarf, tough and lovely. Fern-like leaves are studded with golden buttercup-like flowers early June to October. A fine dwarf for northern friends as it is hardy anywhere in the country. For low hedges it has few equals. Use in full sun.

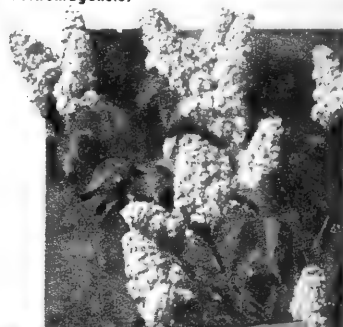

Husky, 15-inch Plants **\$100** each, postpaid

CHINESE HYBRID LILAC

(*Syringa rothomagensis*)

We have tried and examined about every variety of Lilac, and for sheer lovely effect, ease of culture, modest size, good foliage and reliability in producing abundance of clear lilac flowers, we rate this variety tops. At our mother's home we have a 50-foot screen of this Lilac that is a neighborhood delight each year.

2 yr. Field-grown, 18-24 in. **\$129** each

ALTHEA—Double Red

Our new double flowering type with its camellia-like flowers often 3 or 4 inches across, provides a riot of color from mid-summer till frost—a period when few flowering shrubs are in bloom.

VITEX or SUMMER LILAC

Lavender-blue flowers from July until fall. Gray, aromatic foliage. Endures adverse conditions. Buy yours now at these savings!

18-24 inch Plants **\$129** Postpaid

COTONEASTER DIVARICATA

The Queen of Shrubs

Divaricata is first among the queenly family of Cotoneasters. A true aristocrat among shrubs. In fall it is ablaze with thick scarlet berries and glowing red foliage. Summer foliage is equally desirable—highly polished dark green; as thick and waxy as any broadleaf evergreen. A profusion of pinky-white, jewel like flowers in May precede heavy trusses of berries. Plant grows 4 to 5 ft. Thrives in shade or sun. Highly desirable for bank covering, hedging, shrub border or in foundation planting. Laughs at drought and exposure.

Plantland Quality GRASS SEED

PREMIUM LAWN SEED

This is the finest lawn seed we can offer our customers, regardless of brand. Finest Kentucky Blue blended with Creeping and Chewing Fescue, Highland Bent, Red Top, White Clover. **5 LBS. 7.98** Postpaid

Plantland's "QUICKLAWN"

Excellent blend where quick turf effect is important. Kentucky Blue with Perennial and Common Rye Grass, Meadow Fescue, Red Top and White Clover. **5 LBS. 4.79** Postpaid

PLAYGROUND MIX

We have harvested FROM OUR OWN FARM of a bountiful crop of Kentucky 31 Fescue. This grass has withstood torments of the drouth years and the hardest kind of usage. We blend our Ky. 31 with smaller amounts of nurse grasses and White Clover to make the sturdiest, hardest-wearing lawn ever. PLANTLAND'S PLAYGROUND is ideal for rough, tough use. Sow it where romping children prevent usual grasses from growing—or on slopes, in service areas, and elsewhere you cannot maintain a turf. Because of our bountiful seed crop we are offering PLANTLAND'S PLAYGROUND at these low prices.

LIVING GIFTS!

Every season more and more people wish to send their friends "Living Gifts." It is very easy to do. You have only to select from our catalog whatever you wish to send. With your remittance, give us the name and complete address to whom you wish the plants shipped. We will send both you and your friend a suitable acknowledgement giving your name as donor and listing the stock you selected (without prices, of course). The order will be shipped at proper planting time. Complete satisfaction is guaranteed to you, and those receiving the gifts.

Forrest Keeling Nursery

Some "THANK YOU" Notes, From Our Many Satisfied Customers

"This is an addition to our previous orders of April 21st and May 27th, 1956. We just can't resist your splendid offers, and the fine healthy plants your nursery ships out."

—Kansas City, Mo.

"I received my nursery stock today in excellent condition. I am very happy about the shrubs and trees. They are wonderful . . . strong healthy and very good looking."

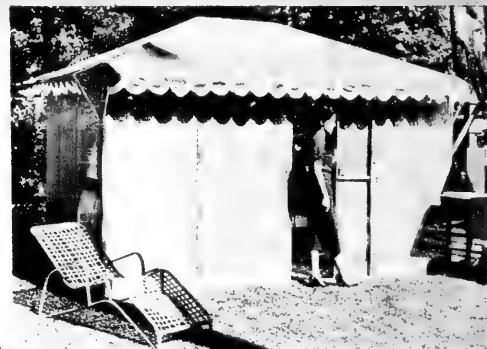

—Portland, Oregon

"Thank you for your excellent service last year—the stock was in fine condition . . ."

Midland, Michigan

" . . . The plants all arrived in good condition. I am well satisfied with the order."

—Johnson City, N.Y.

Our "HOLIDAY" Screen House

"The Finest We've Ever Seen"

Post-paid \$2.60

"I have on several occasions bought some nursery stock from you. The last order was received yesterday. I want to say that it is a pleasure to deal with you. You have excellent nursery stock, fairly priced and beautifully packaged for shipment. In yesterday's shipment received incidentally, the shipment received yesterday was in excellent condition due to the excellent job your staff did in preparing it for shipment. It has been planted and I'm only waiting for warmer weather when most of it will flower."
Charles W. Thomas
Roanoke, Virginia

PLANTING SCHOOL EVERY SATURDAY

You'll enjoy these sessions at 2 p.m. each week. For more details see Page 11.

PEARS

Bartlett—Strong grower, produces when very young. Finest commercial pear. Fruit is large, juicy, golden yellow in color with a faint blush. Uniform in shape.

Seckel—Known as "Golden Sugar" because of its sugar-sweet flavor of highest quality. Bears young and heavily. Best 2 yr. trees. 4 to 6 ft. Your choice of varieties.

3 OR MORE EACH \$2.00 EACH
Post-paid \$2.29

Dwarf FRUIT TREES

Dwarf fruit trees are created by grafting scions of standard varieties on dwarfing understocks. They bear young, often the next year after planting. Fruit is generally larger than on standard-size trees. They are easier to maintain and harvest. Plant them eight to ten feet apart. Our dwarfs are from the best production available. Apples (excepting Delcon, a natural dwarf) are grafted on the famous Malling understocks.

DWARF PEACH

POLLY—A natural dwarf tree. White flesh colored fruit is delicious. Freestone variety, ripening mid-season—about ten days before Elberta.

BEST GRADE \$2.25 EACH
Postpaid

DWARF CHERRY

DWARF RICH—U.S. Dept. of Agriculture introduction. Bushy, shrublike tree only 5 to 6 feet tall bearing heavy crops.

BEST GRADE \$2.49 EACH
Postpaid

DWARF APPLE

DELCON—a deep red apple growing to only 12 feet, with a flavor combination of its parents, Jonathan and Red Delicious!

DOUBLE RED DELICIOUS—same as standard only a dwarf.
BEST GRADE \$3.90 EACH
Postpaid

DWARF PEAR

SECKEL—Exactly same as standard Seckel (best home orchard pear) except tree is a dwarf. Wonderful flavor.

BEST GRADE \$2.25 EACH
Postpaid

Plantland's Quality FRUIT TREE Sale!

PEACHES

EARLY ELBERTA—Large fruit—yellow, firm, delicious free-stone. Most popular of all peaches.

GOLDEN JUBILEE—Very early. Brilliant golden-fleshed, very juicy, and a free-stone. Excellent for canning.

HALE HAVEN—Colors all red long before it is ripe. Very sweet flavor. Free-stone. One of the best canning peaches.

RED HAVEN—Large, luscious and productive. Firm fruit, red in color with golden firm-textured flesh.

Prices on all Peaches, your choice of varieties alike or assorted. All **FREE-STONE** and all are **SELF-POLLINATING**. Best grade trees 4 to 6 feet.

\$1.69 EACH Each per 5 — 1.60 Postpaid
Postpaid Each per 10, 1.20 Not Postpaid
Each per 25 or more, 1.10 Not Postpaid

This is the best spring in several years for planting fruit trees—particularly our husky two-year trees. Soil moisture has been replenished following the dry years. The outlook for growing conditions has never been better.

If you haven't eaten tree-ripe fruit from your own trees you really haven't known how delicious it can be. Plenty of fruit, in variety, is vital to your family's health. Nothing can do more to ease the family food budget than a well-rounded fruit planting.
(Incidentally, you can't buy better fruit trees and other fruit plants than those we offer.)

New STANLEY PLUM

Large, dark blue, prune-shaped fruits, rich yellow meats. Free-stone.

4 to 6 ft., top-grade

RED DELICIOUS

Plantland's Choice APPLES

Double-Red Delicious—Most popular late apple in America. Vigorous and a heavy bearer. This is the improved strain of the old Delicious.

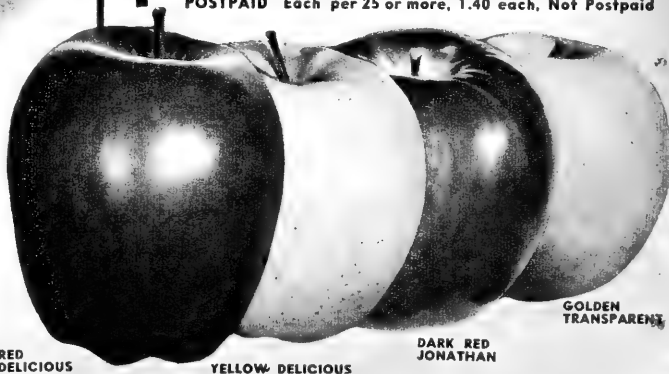

Yellow Delicious—Easily the most desired golden-colored apple grown. Firm, crisp and juicy. Unexcelled in flavor when tree-ripe.

Golden Transparent—Earliest of them all and the tree bears when very young. These fine yellow apples provide delectable midsummer fruit. Early apples are particularly easy for the home orchardist to raise and are recommended by the Missouri Ag. College for this reason.

Dark Red Jonathan—The old Jonathan is an all-time home orchard favorite and this new red sport adds attractiveness to a fruit unsurpassed for crisp, winy flavor. Noted as an early bearer.

Prices on all Apples, your choice of varieties alike or assorted. Best 2 yr. trees, 4 to 6 ft.

THE BEST IN STRAWBERRIES

Remember, strawberries are the first fresh fruit of the season. They are wonderful for your family's health—they liberally come with Vitamin C—and they are the easiest of all fruits to grow. Our plants are the new virus-free strains developed by the U.S. Dept. of Agriculture—The plants **LIVE** and **PRODUCE** MORE HEAVILY AND LONGER.

ARMORE—The great new introduction of the University of Missouri. In an eight-year test it has out-yielded them all—an average of 3,847 quarts per acre. The berries are huge, cherry red and of superb dessert quality. It comes on late, which extends strawberry season.

NEW BLAKEMORE—Very vigorous, drought resistant. Good yield on nearly all soils. One of the earliest varieties. Firm fruit, and tasty.

SENATOR DUNLAP—All-time favorite for home garden. Very hardy orlite for home garden. Ripens in and always dependable, ripens in mid-season and is simply delicious to eat fresh, can, preserve or freeze.
